

# MH 1010

## Single Head Welding Machine

- Stainless steel, long lasting plates.
- Time saving while profile is clamped as the stopper is adjusted 3-5 mm higher than profile.
- Provides safe operation.

- Practical teflon change thanks to roller system.
- Stable heat distribution and long lasting heater plates distributes the heat homogeneously.

### General Features

- Single corner welding of PVC profiles between 60°- 180°
- Portable, mobile.
- Welding with maximum resistance.
- Practical mould change system.
- Digital setting of heating values.
- Zero welding with 0,2 mm tolerance.

### Optional Equipments

Welding Moulds
